

NAVAL SEA SYSTEMS COMMAND QUARTERLY PROGRESS REPORT FOR SHIPBUILDING AND CONVERSION

DEPARTMENT OF THE NAVY

01 July 2001

01 July 2001

Naval Sea Systems Command Quarterly Report for Shipbuilding and Conversion NAVSEA 250-574

1. The Naval Sea Systems Command Quarterly Progress Report for Shipbuilding and Conversion (NAVSEA 250-574) is a report on the progress of construction and conversion of ships in the United States for the U.S. Navy and the Security Assistance Program. New construction data is listed in the front of the report and is followed by data for conversions.
2. Ships are listed in this report when contracts or projects are placed for construction or conversion. They are listed alphabetically by classification symbol and numerically by hull number. Data for a ship in a Naval shipyard is shown until the construction or conversion of the ship is reported as 100 percent complete in at least one issue of this report. Data for a ship constructed or converted in private shipyard is shown until the delivery occurs.
3. Data appearing in this report is extracted from Naval Sea Systems Command contracts and project orders; from Chief of Naval Operations directives, dispatches and letters; and SUPSHIP reports. Pages I - III explain the contents of the report where columnar headings are not considered completely self-explanatory. These explanations should be read before an attempt is made to use the report. Summaries of events which occurred during the past three months such as awards and deliveries as well as keel lay downs, launchings, deliveries and commissioning scheduled to occur within the next six months are listed in pages IV- VI. A summary of all contract and estimated delivery date changes will follow the above key event pages. Ships beyond completion of fitting-out but within SCN obligation/work limiting date are listed following the pages containing the summary of delivery dates.
4. Questions concerning this report should be addressed to the Commander, Naval Sea Systems Command, (SEA 017C), Erika Mansfield, 1333 Isaac Hull Ave SE Stop 1340, Washington Navy Yard, DC 20376-1340, Telephone (202)781-2741, (DSN 326-2741).

Nidak A. Sumrean
Director, Industrial Planning And
Shipyard Overhead Group

Contents of the Naval Sea Systems Command Quarterly Progress Report for Shipbuilding and Conversion

Column headings of NAVSEA 250-574 which are not considered completely self-explanatory are defined as follows:

Contract or Project Order Number/FY Program.

The Naval Sea Systems Command Contract prefix and number of the project order number and the fiscal year in which the funds for the construction or conversion of the ship were authorized are shown. In addition, the symbol (SCN etc.) of the chargeable appropriation is also shown.

Prototype Symbol and Hull Number.

This is the classification symbol and hull number upon which the construction of the ship is being patterned.

Applicable Specification.

Applicable specifications as of the date of the contract or project order.

Fitting-Out Activity.

Activity designated by the Chief of Naval Operations to physically assemble and place on board the allowance list material, other than that which may have been placed on board at the building or conversion yard, or which may be specifically designated to be placed on board elsewhere.

Outfit Supply Activity.

Naval Activity designated by the Commander, Naval Sea Systems Command, to be responsible for the procurement and delivery to the fitting-out activity of that material designated in allowance lists as 'SUPPLY OFFICER FURNISHED', and also the procurement and delivery to the ship of the U.S. Navy fleet material support office material.

Start of Construction Date.

Estimated (or actual) date on which fabrication of structural parts is to be (or was) initiated.

Start of Conversion Date.

Estimated (or actual) date on which the physical removal or addition of other than inventory material is to be (or was) initiated on the ship or the estimated (or actual) date on which fabrication of structural parts is to be (or was) initiated, whichever date is earlier.

Contract Delivery Date - Private Yard.

This is the delivery date as shown in the applicable letter of the award or contract (as modified) for a ship being built in a private shipyard.

Assigned Completion Date.

Completion and delivery date established by the Naval Sea Systems Command in the letter which assigns the construction or conversion of a ship to a Naval shipyard.

Estimated Delivery Date.

1. Naval Shipyard - Estimated (or actual) date when all construction, trials and fitting-out will be (or were) complete.
2. Private Yard - Estimated (or actual) date when the ship will be (was) delivered to the Navy. This date represents completion of preliminary acceptance trial and mandatory work resulting therefrom which must be completed prior to delivery. The fitting-out period is also included when a ship is to be (was) fitted out in the private yard. This date also represents the time required for the ship to travel from the contractor's yard to the delivery point.

Commissioning Date.

Estimated (or actual) date when the ship is to (or did) reach a stage of the construction sufficiently advanced to permit the assignment of the ship to the commanding officer and his crew (i.e. commissioning or recommissioning) as authorized by the Chief of Naval Operations.

Completion of Fitting-Out Period.

Estimated (or actual) date when the fitting-out of the ship will be (was) completed.

Obligation/Work Limiting Date.

This is the estimated and/or actual date beyond which SCN funds may not be cited for work performed. This date automatically occurs 11 months after Completion of Fitting-Out unless otherwise authorized by the Comptroller of the Navy.

Note Symbols and Letter Prefixes to Ship Classification Symbols

<u>Note</u>	<u>Explanation</u>
*	Actual date
**	To be inspected by the Board of Inspection and Survey
/1	No progress data provided for prior three months
/3	Start is defined as start of GRP fabrication
/A	Some improvement possible
/B	Some delay probable
/C	Adjusted percent
/D	Revision over last report
/E	Delivery to a USN activity
/F	Shipbuilder is attempting early delivery as indicated
/G	Yard to confirm date
/H	For planning use only
/I	Progressing data is not provided for LCAC'S
/K	Ceremonial date
/L	Figures and dates reflect data of last report
EN	Event not applicable
ILP	Security Assistance Program
NA	Date not available
TBD	Date to be determined
<u>Letter Prefix</u>	<u>Explanation</u>
F	Being constructed for a foreign government
T	Assigned to the Military Sealift Command (MSC)
